Summary

Data professional with hands-on experience building and maintaining BI dashboards (Tableau, Power BI) for operational, financial, and customer-facing digital platforms and conversion funnels. Proven track record automating reporting workflows, improving data governance, and translating raw data into meaningful insights driving measurable business outcomes.

Education

BITS Pilani — Dubai, UAE
Bachelor of Engineering in Computer Science; CGPA: 9.01 (Distinction) — *Aug. 2021 – Jul. 2025*

The Millennium School — Dubai, UAE
High School Diploma (Science); Overall Percentage: 95 — *Apr. 2008 – May 2021*

Experience

Associate Data Analyst | ***Tableau, Excel, SQL, Python, PowerBI*** — Sep. 2025 – Present
Udrive Rent-A-Car — *Dubai, UAE*

- Drove a 30% fleet revenue improvement over 12 months through data-driven optimization of fleet performance, placement, and vehicle selection.
- Partnered with Marketing, Product, and Tech teams by introducing social media performance reporting, deepening analysis of marketing tools, and analysing registration funnels, verification workflows, and app performance, improving customer conversion from registration to trip taken by 12%
- Built and maintained a live cost-analysis dashboard in Tableau, reducing manual reporting effort by 25% and giving Operations and Finance real-time visibility into fleet cost performance.
- Developed a Customer Service call-analytics dashboard, cutting manual reporting work and enabling data-led investigations that improved productivity and customer experience by 15%.

Data Analytics Intern | ***Qlik, Excel, SQL, PowerBI*** — Jan. 2025 – Jul. 2025
MSD GCC — *Dubai, UAE*

- Developed 8+ dashboards to optimize sales performance and forecasting across 6 GCC countries, and automated workflows, reducing reporting time by 30%.
- Collaborated with regional teams to design data products and dashboards; gathered requirements, managed reporting backlogs, and delivered features supporting sales strategy across 6 GCC markets.

Customer Experience Analyst Intern | ***Excel, Tableau, BeautifulSoup*** — Jun. 2023 – Aug. 2023
LuLu International Exchange — *Dubai, UAE*

- Mapped user journeys via reviews and surveys, then built dashboards identifying 5+ CX gaps — delivering insights that shaped product and ops improvements for the LuLu Money App.

Projects

Power BI Analytics Projects | *Power BI, DAX, Data Modeling* — 2025

- Built an Amazon product-performance dashboard analyzing $470K+ in sales across categories, surfacing rating, discount, and product-mix trends via KPI cards, bar charts, and treemap visuals.
- Analyzed Netflix's stock price performance from 2002–present alongside key innovation and strategic shifts across different eras, using an interactive Power BI dashboard with time-based trend analysis, conditional formatting, and drill-down filters to correlate market behavior with strategic decisions. Completed as part of Principles of Management coursework.

ESG Indices based Prediction Model and Blockchain App | *LSTM, CNN, Transformer* — Sept. 2024 – Dec. 2024

- Developed a Hybrid CNN-LSTM-Transformer Model for Stock Price Prediction for various ESG indices, along with conducting connectivity studies for various industries and ESG indices. Achieved first place at the National Student Research Seminar.
- Developed a blockchain application for better transparency of ESG reporting, incorporating Random Forest Regressor for AI-based predictions based on the numbers provided along with a live dashboard to track metrics for stakeholders. This was presented at the Academy of Global Business Research and Practice Summit.

ML-Based Live Cricket Match and Run Prediction | *Python, StreamLit, Pandas* — Sept. 2023 – Aug. 2024

- Developed an end-to-end web application using StreamLit to predict the runs scored at the end of the first innings of any ODI match and the outcome of a match at any point from a set of attributes with 99% accuracy. Presented at IEEE IS'2024.

Technical Skills

Languages: Python, Java, SQL, Markdown, DAX
Libraries and Frameworks: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, Seaborn, Matplotlib, Plotly, OpenCV, SciPy, XGBoost
AI Tools and Platforms: Hugging Face Transformers, Streamlit, Google Colab, Anaconda
Data and Develper Tools: Power BI, Tableau, Qlik, Excel, SQLAlchemy, Postman, Git, Jupyter, VS Code, PyCharm, Figma
